Now, we submit whether a man who possesses any of the spirit inculcated by Christ and Illustrated in his life, can engage in a miserable party crusade against foreigners; whether he whose weapons are not carnal but spiritual can become a brawler in the political arena, and invoke the ballot box to crush an opponent in religion? Much less do we think that the minister of a kingdom not of this world, is in pursuit of his calling when he is ranting about politics, and hungering and thirsting after office; as many of the clergy are doing these days.

We think it much to the credit of Governor Weight that he declines to misspend the Sabhath.

ST. Louis, Nev. 14th, 1853. It gives me pleasure to bear testimony to the value of Mr. Solomons' Glasses. Having made a trial of Mr. Solomons' Speciaeles, and examined the principle on which they are constructed, I have no hesitation in pronouncing them superior to any with which I am sequainted, and accordingly can most cheerfully recommend them to all who need artificial aid in improving their vision.

LOUISVELLE, Oct. 28rd, 31854

I have made trial, for a short time, of Mr. Solomous' Glasses, and I am much pleased with them; they render vision very distinct, and appear to fatigue the eyes less than the glasses I have heretofore used. Those in need of artificial aid in this respect, will do well to call on him.

Prof. Obstetics, University of Louisville. I have this morning examined Mr. Solomons' Glasses; and having, for the last two years, made diseases of the eyes my study. I have no hestiancy in saying to those who need glasses, that they will find them a superior at tote, well adapted to al lages.

RESTORATIVE.

This admirable preparation, the popularity of which extends over the whole country, from Maine to Georgia, is the only article which can with confidence be used in all the diseases to which the human hair is liable. Persons are daily writing or coming to the proprietor in person, to announce the benefit received from its use, some of whom have been most entirely paid, and their hair has been restored; others whose hair had become dry and hard, have had it completely revived and beautifed; and ethers whose scalps have been covered with sourf and dandruf, have had it completely eradicated, and the hair restored t a deligatral purity and beauty.

Jules Hauel's Eau L'ustrale Hair Restoretive is beyond measure superior to any other article used for the above purposes. This the proprietor candidly believes to be true, from his knowledge of the ingredients composing it; and from the thousands who have testified in its lavor.
